PROFESSIONAL EXPERIENCE

Project & Operations Coordinator (Intern) Tech Unicorn – Dubai, UAE	April 2026 – Present
Active Calendar & Schedule Management: Proactively manage and coordinate active calendars and schedules for project leaders, organizing team syncs, daily stand-ups, and stakeholder meetings using Microsoft Teams. Meeting Coordination: Schedule and confirm alignment meetings, sprint planning sessions, and reviews across cross-functional development and operations teams, ensuring smooth meeting agendas and execution. File & Information Organization: Ensure systematic file organization and document control across shared repositories adhering strictly to corporate governance and office protocols. Ad-Hoc Office & Operations Support: Provide comprehensive ad-hoc operational support around the office, tracking work items, monitoring deliverable progress, and resolving logistical bottlenecks under tight deadlines. Communication & Reporting: Act as a key liaison between team leads and internal stakeholders, ensuring transparent, timely, and professional communication across all project phases.	
Associate Software & Systems Specialist Scienter Technologies (Pvt) Ltd	Jun 2024 – Apr 2025
Process & Task Optimization: Managed enterprise-level workflow modules, improving operational process efficiency by 30% through meticulous optimization and structured data handling. Issue Resolution & Customer Service: Investigated and resolved critical operational and production issues, delivering top-standard support and enhancing customer/user satisfaction. Documentation & Quality Assurance: Maintained comprehensive application and system documentation in strict alignment with office and enterprise guidelines, ensuring data integrity and reliable performance. Cross-Functional Collaboration: Collaborated daily across multiple departmental teams to organize workflows, track issues, and meet demanding project deadlines.	
Software & Operations Intern Scienter Technologies (Pvt) Ltd	Jun 2023 – Jun 2024
Document & Data Management: Supported database operations and structured file/data maintenance, prioritizing data accuracy and complete compliance with office protocols. Daily Task Prioritization: Managed multiple daily technical support and administrative tasks simultaneously while consistently meeting fast-paced team deadlines. Team Collaboration: Partnered closely with senior specialists to streamline internal processes, document requirements, and assist in daily operational reviews.
